

COMPLETE CASUAL COLLECTION

OUR COMMITMENT TO

OUR PROCESS

EACH ADIRONDACK CHAIR USES 579 RECYCLED MILK JUGS

We use high density polyethylene (HDPE) plastic, grind it up and then blend it together with pigment. The mixture goes through overhead pipes to extruders that then melt the mixture to form durable, plastic lumber. We also use custom in-house molds that reduce hardware and make our furniture structurally superior. HDPE plastic is common in bottle caps, milk jugs, and orange juice containers (No. 2 plastic ). We buy these types of post-consumer and post-industrial plastics, grind it up and use it to make beautiful outdoor furniture.

We are a vertically integrated company that manufactures all of our products in our 300,000 sq ft facility in Stratford, Ontario, Canada.
